MISSION STATEMENT

The mission of the Marion County Schools is to prepare each student to successfully meet the challenges of living and working in a global society.

OFFICE OF THE SUPERINTENDENT

August 10, 2015

Dear Parents and Students of Marion County:

As we begin the 2015-2016 school year, I want to strongly encourage you to be involved and informed about your child's education in the Marion County School System. We will strive to provide an environment that is safe, one that is conducive to learning, and one that will promote and encourage student, parent, and community involvement.

The material presented in this handbook is an outline of policies, procedures, and requirements of the Marion County School System. Each of the eleven schools within the county may have additions to these policies, procedures, and requirements. Please familiarize yourselves with both the local and system-wide information. Our entire lists of policies are available on our website www.mcbe.net. Any questions or concerns not addressed in this handbook should be directed to your local school administrator or to the Marion County Board of Education.

We have high expectations for our students and faculties. We must accept nothing less than a high school diploma for each child. We need you, as parents, to also have high expectations for our students and faculties. I look forward to working with each of you to prepare our young people for success.

Respectfully,

Ryan Hollingsworth, Superintendent

Marion County Schools

EQUAL EDUCATION AND EMPLOYMENT OPPORTUNITY STATEMENT

It is the policy of the Marion County Board of Education that no person in the school system shall, on the basis of race, color, creed, religion, sex, age, national origin, or disability be denied employment, be excluded from participation in, be denied the benefits of, or be subjected to discrimination in any program or activity as identified and defined by Section 504 of The Rehabilitation Act of 1973 (P.L. 93-112) and The Americans with Disabilities Act of 1990.

CHILD FIND

- (a) Each local education agency shall implement procedures which ensure that all persons between the ages of birth to twenty-one (21), who may be in need of special education and related services are identified. Child Find procedures include identification, location and evaluations, including a practical method of determining which children are currently receiving needed special education and related services and which children are not currently receiving needed special education and related services.
- (b) Local education agencies are only responsible for implementing the Individuals with Disabilities Education Act (IDEA) regulations as they relate to evaluation of students.
- (c) The local education agency must begin with multidisciplinary evaluation process for any child thirty (30) months of age who has been referred for IDEA special education services or who is suspected of needing IDEA special education services. The process must begin when the child is thirty (30) months old in order to ensure that if the child is eligible for services, those services will be provided as indicated on the IEP on his/her third birthday.

GIFTED STUDENTS

Gifted students are those who perform at or who have demonstrated the potential to perform at high levels in academic or creative fields when compared to others of their age, experience, or environment. These students require services not ordinarily provided by the regular school program. Students possessing these abilities can be found in all populations, across all economic strata, and in all areas of human endeavor

Teachers, counselors, administrators, parents or guardians, peers, self, or any other individuals with knowledge of the student's abilities may refer a student. Additionally, all second grade students will be observed as potential gifted referrals using a gifted behavior checklist.

For each student referred, information is gathered in the areas of Aptitude, Characteristics, and Performance. The information is entered on a matrix where points are assigned according to established criteria. The total number of points earned determines if the student qualifies for gifted services.

To make a referral, contact the gifted education specialist at your child's school.

SCHOOL OPENING AND CLOSING TIMES

School starting and closing times are different at each school as local conditions require. School personnel will not assume responsibility for such students more than fifteen (15) minutes before the time set for opening classes / homeroom each morning and fifteen (15) minutes after the time set for closing the normal school day's classes. In all cases, responsibility shall be accepted and supervision provided for students who arrive at school via School System buses.

EMERGENCY SCHOOL CLOSINGS

In the event of a school closing for any reason, the Marion County School System's Central Office will notify the media to broadcast or televise details of the situation. Please **DO NOT CALL** the Central Office, individual schools, radio, or television stations. Necessary details will be broadcast or televised as information is available.

SCHOOL VISITORS

Student Visitors

Students enrolled in the schools of the School System are not permitted to bring student visitors to school during regular school hours without prior approval by the principal.

Students Being Checked Out of School

All parents or guardians or other authorized persons coming to school to check a student out of school must do so through the principal's office via the school's approved check-out plan. Such persons are not to go directly to classrooms for this purpose.

Trespassing

Refusal to register through the principal's office or to identify one's self to school authorities may constitute trespassing and constitute grounds for prosecution.

Adult Sex Offenders - Adult sex offenders who have been convicted of a sex offense involving a minor must notify the principal of the school or his designee before entering school property or attending a school activity. See policy JFAD for other specific requirements.

HEAD LICE INFESTATION

The procedures below shall be followed in instances where head lice and/or nits(eggs) are present:

1. If head lice infestation is discovered, the infested student(s) will be sent home for treatment.
2. The student(s) determined to have head lice and/or nits will be ineligible to attend school until all lice and nits have been removed.
3. The parent/guardian of a student(s) sent home for treatment must bring the student(s) back to school for readmittance. Failure of the parent/guardian to bring the student back for readmittance after (3) consecutive school days will require the local school principal to report the matter to the Attendance Officer. Days accumulated after the third (3) day will be considered unexcused.
4. After a student has been readmitted following treatment, school personnel shall perform a follow up examination in seven days to determine if the infestation has been removed.
5. School personnel shall report any student(s) who continue to be infested with head lice to the Marion County Health Department, and/or Department of Human Resources, and the Juvenile Court for further action.

MEDICINES

Because an insufficient number of trained medical personnel is employed by the School System that would be needed to monitor and to subsequently treat students who might suffer the adverse affects of their taking medications, the Board strongly discourages the dispensation of medicines to students by its employees during school hours.

Alternately, since most medications are currently available in longer-acting or in "time-release" forms, parents or guardians should administer medications to their child(ren) at home to the greatest extent possible.

However, when a student's attendance depends upon his/her taking medication during school hours, the Board hereby directs that it be dispensed to students who are in this predicament during the school day by appropriate school personnel, but be dispensed commensurately with procedures outlined in JGCA-R1: Guidelines for Administering Medications to Students in which is compliant to SDE & State Board of Nursing Curriculum.

Reporting Accidents

Students should report all school-related accidents in which they are involved to school officials. Failure to report such accidents may result in loss of privilege to make claims on the student accident insurance program.

In grades 1-2 the student must pass Math, Reading, and Language with a minimum yearly average of 65.

If the course work is retaken in summer school, pass/fail shall be determined by the summer school grade only, i.e. no averaging of summer grades with regular academic year grades. (see summer school policy filed IDCA and JFH) If a student fails a semester or yearlong class, they may be eligible for the credit recovery program in the next semester or summer school. Students who fail a course or semester should see their guidance counselor as soon as possible in order to determine the options open to the student.

Computerized report cards will be replaced for a \$2.00 fee.

Determining Grade Averages

Grades 1 - 6

Yearly Averages: The final yearly grades for students in grades 1-6 shall be based on a yearly average. Grades 7 - 12

COUNSELING AND GUIDANCE SERVICES

Counseling and guidance in the Marion County Schools is a part of the total school program. Student development is a major goal of the guidance program. Guidance shares, with the total education effort, the goal of helping each individual develop his/her own best self-realization within the values of our society. The central activity in the guidance program is counseling. Through counseling, students get assistance in dealing with their own unique situation. The focus is upon understanding the individual as thoroughly as possible - his/her abilities, motivations, and relationships to others (in his/her home, in school, among peers), and his/her own concept of self. Following a self-understanding, the school counselor's role is to assist students in developing commensurate with their interest and ability as far as he/she can educationally. All school personnel have a duty and responsibility to help students acquire knowledge, skills, and attitudes that will provide for full development of their educational, personal/social, and career/vocational potential. The school counselor helps students and their parents with individual planning for that "next-step" in learning how to learn, learning how to earn a living, and learning how to live in today's competitive global market place.

HOMEWORK

Students will be provided opportunities to enhance and expand their understanding of skills and concepts through appropriate homework assignments. Such assignments should logically relate to classroom activities. Homework may be assigned to individual students within a class and/or to the entire class based on teacher judgment.

Student Responsibilities

Student will be expected to assume the following responsibilities when homework is assigned:

1. Complete the assignment in the specified time periods.
2. Return the assignment on time.
3. Do the best work possible when completing assignments.

Additional information, including Marion County School System Board Policies, can be found on the following websites: www.mcbe.net, www.alsde.edu.

INTERNET ACCEPTABLE USE POLICY

Marion County Schools will be offering access to the Internet. To gain access, each student must obtain parental permission as verified by the signatures on the attached form.

What is the Internet?

The Internet is a global network made up of many smaller contributing networks connecting thousands of computers throughout the world and millions of individual subscribers. Internet access is coordinated through a complex association of government agencies and regional and state networks. While there is an abundance of valuable information, with this access comes the availability of material that may not be considered to be of educational value in the context of the school setting.

What is possible?

Through the Internet, students can explore thousands of libraries, databases, museums, and other resources. They can exchange personal communication with other users around the world. While the use of the Internet is primarily instructional in nature to reach an educational goal, some students may find ways to access other materials. Unfortunately, some of these resources contain items that are illegal, defamatory, inaccurate, or potentially offensive. Most educators believe the benefits to students from access to the Internet exceed the disadvantages. Parents and guardians of minors are responsible for setting and conveying the standards their children should follow when using these resources. Therefore, we respect each family's right to decide whether or not to apply for access.

How should it be used?

The Internet should be used for research and education through the provision of unique resources and opportunities for collaboration among students, teachers, and administrators. Use of the Internet must be in support of this and consistent with the educational objectives of the school.

What is expected?

Students are responsible for appropriate behavior while using the Internet. Additionally, students are responsible for their actions while using the equipment and the resources. Use is a privilege, not a right, and may be revoked if abused. Vandalism of equipment or programs will result in punishment as defined in the school conduct policy.

What are the privileges and rights of a user?

All users have certain privileges and rights. Infringement of or disrespect to the rights of others may result in the loss of Internet privileges. These rights include:

Privacy - All users have the right to privacy. However, if a user is believed to be in violation of the guidelines, a system administrator may review communications to maintain system integrity and to insure that students are using the system responsibly.

Safety - Any user who receives threatening or unwelcome communications should bring them to the attention of a system administrator or teacher.

Intellectual Freedom - Any statement of personal belief is implicitly understood to be representative of the author's individual point of view and not that of the school.

Inappropriate materials or language - No profane, abusive, or impolite language should be used to communicate nor should materials be accessed which are not in line with the rules of school behavior.

Equal Access - All users will be granted free and equal access to the Internet. Exploration of the Internet is encouraged relative to the purposes of research and education. No single user should monopolize the workstations connected to the Internet.

What are the guidelines?

1. Be prepared to be held accountable for your actions. Exemplary behavior is expected from all users at all times.
2. Do notify an adult immediately if you encounter materials that violate the school code of conduct.
3. Do not use a computer or the Internet to hurt, harass, attack or harm other people or their work.
4. Do not damage the computer or network in any way.
5. Do not degrade the performance of the network through the posting of electronic chain letters or other useless information.
6. Do not use the Internet for illegal activities, i.e. threats, instructions on how to perform an illegal act, child pornography, drug dealing, purchase of alcohol, gang chain letters or other useless information.
7. Do not install software or download unauthorized files, games, programs, or other electronic media.
8. Do not violate copyright laws.
9. Do not view, send, or display obscene, profane, lewd, vulgar, rude, disrespectful, threatening, or inflammatory language, messages or pictures.
10. Do not share your password with another person.
11. Do not reveal the personal address or phone number of you or anyone else.
12. Do not access other student's work, folders, or files.
13. Do not re-post non-academic personal communications without the original author's prior consent.

Marion County School System
 Family Educational Rights and Privacy Act (FERPA)
 Annual Notice for Disclosure of School Directory Information

Dear Parent/Guardian;

Family Educational Rights and Privacy Act (FERPA) is a federal law that requires the school district, with certain exceptions, to obtain your written consent prior to the disclosure of personally identifiable information from your child's educational records. However, the school may disclose some student information without written consent when the information is designated "Directory Information" unless you have advised the district to the contrary in accordance with district procedures.

The primary use for Directory Information by the district is to include this type of information in certain school publications. It is generally not considered harmful or an invasion of privacy if released. Examples of school publications are:

- a playbill or program, showing your child's role in a drama or music production
- the annual yearbook
- honor roll or other recognition lists published at school or in newspapers
- graduation programs
- sports statistics listed in programs, such as football which may include height and weight of team members
- school or district website

Directory information can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to:

- Other schools the student is seeking to attend (transcripts, etc.)
- Class ring manufacturers
- State or federal authorities auditing, evaluating programs or enforcing state or federal laws
- A court order by subpoena

The school district has designated the following as Directory Information:

<i>Student name</i>	<i>Degrees, honors and awards received</i>	<i>Major Field of study</i>	<i>Grade level</i>
<i>Address</i>	<i>Most recent educational agency or institution attended</i>	<i>Dates of attendance</i>	<i>Photograph</i>
<i>Telephone number</i>	<i>Participation in school- sponsored activities and sports</i>	<i>Weight and height of members of athletic teams</i>	<i>Date and place of birth</i>

Two federal laws require school districts that receive assistance under the No Child Left Behind Act of 2001 to provide military recruiters, upon request, with three Directory Information categories - names, addresses, and telephone listings - unless parents have notified the district that they do not want their child's information disclosed without their prior written consent.

_____ I give my permission to disclose my child's Directory Information

_____ I do not want my child's Directory Information disclosed and request one of the following:

_____ Do not release my student's Directory Information at any time.

_____ Do not release my student's Directory Information without prior written consent.

Name of Student: _____ School: _____ Date: _____

Name of Parent/Guardian: _____

Signature of Parent/Guardian: _____

Address: _____ City: _____ State: _____ Zip: _____
